

# PATRICK OLIPHANT

FullStack-Developer

## PERSONAL PROFIL

Reliable professional with experience in logistics and mail delivery and recent training in full-stack web development. Enthusiastic about technology and problem solving, with a solid command of English, technical affinity and a strong desire to develop.

## KARRIERE - HÖHEPUNKTE

Here are some of the highlights of my career:

- Optimizing operations as a logistics driver: I have improved operations through accurate and speedy deliveries, always ensuring excellent customer interactions.
- Working with CNC machines and programming in production: Through the use of CNC machines and appropriate programming, I have achieved high productivity and continuously acquired new skills.
- Completing projects in HTML, JavaScript and React during my apprenticeship at CareerFoundry: I excelled in both frontend and backend work.

These experiences have strengthened my skills in logistics, manufacturing and web development and have underlined my willingness to be a lifelong learner.
